

Technical clarity for better-built projects.

BUILDING & ENGINEERING DRAFTING / PROJECT PLANNING & SCHEDULING / ESTIMATING & COST CONTROL

COMPANY PROFILE

Planetview Pty Ltd is a Perth-based project services consultancy established in 2023. We support building and civil engineering clients across Australia through structured, remote delivery.

01 Building & Engineering Drafting

- + 2D plans, elevations, sections and details
- + 3D modelling and project visualisation
- + Drawing amendments, coordination and as-built updates
- + White-label drafting support for consultants

02 Project Planning & Scheduling

- + Tender and baseline programmes
- + Work breakdown structures and construction sequencing
- + Critical-path, milestone and look-ahead schedules
- + Progress updates and programme narratives

03 Estimating & Cost Control

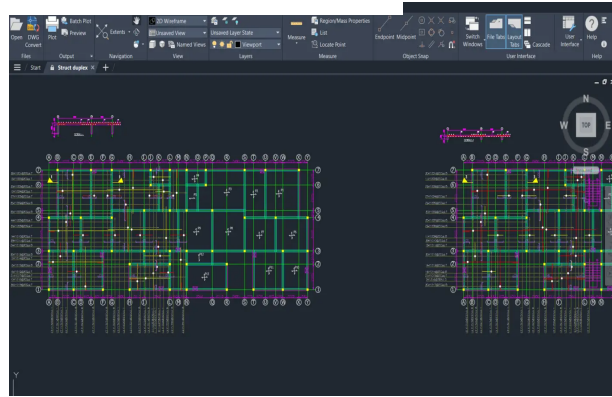

- + Quantity take-offs, BOQs and pricing schedules
- + First-principles rate build-ups and tender support
- + Budget, commitment and variation registers
- + Cost forecasting and progress reporting

Who we support

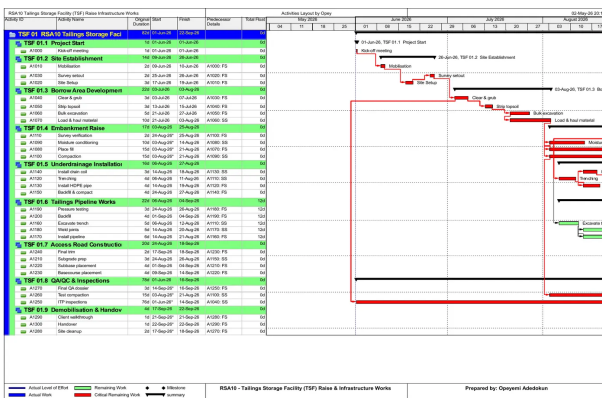

Builders & contractors	Overflow tender, planning and commercial support
Architects & designers	Confidential 2D/3D drafting and visualisation
Engineering consultants	White-label documentation and programme support
Developers & project managers	Independent estimating and project-control deliverables

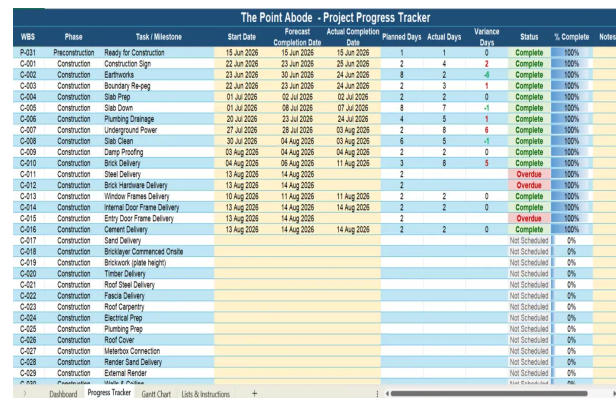

3D residential interior coordination

Engineering drafting and drawing production

Infrastructure programme and critical-path planning

Project progress and delivery tracking

Engagement process

- 1 Submit your brief**
Provide the scope, drawings and required timeframe.
- 2 Scope review**
We clarify requirements, assumptions and deliverables.
- 3 Fee proposal**
Receive a defined scope, timeframe and fixed fee.
- 4 Remote delivery**
Review issue, comments and final project deliverable.

Projects are accepted subject to current capacity and agreed delivery timeframes. Consultations are available by appointment, with remote delivery across Australia.
